CONTENTS VOLUME 31 (1988/1989)

Research Papers

Gold exploration in the Callion area, Eastern Goldfields, Western Australia
M.J. Glasson (West Perth, W.A., Australia), R.W. Lehne (Frankfurt, F.R. Germany) and F.W. Wellmer (Hannover, F.R. Germany) 1

Geochemical behavior of uranium in soils, part I. Influence of pedogenetic processes on the distribution of uranium in aerated soils
B. Gueniot, C. Munier-Lamy and J. Berthelin (Vandoeuvre-lès- Nancy, France) 21

Geochemical behavior of uranium in soils, part II. Distribution of uranium in hydromorphic soils and soil sequences. Applications for surficial prospecting
B. Gueniot, C. Munier-Lamy and J. Berthelin (Vandoeuvre-lès-Nancy, France) 39

An application of lithogeochemistry to the evaluation of the Ni-sulphide ore potential of weathered serpentinites in the Fortaleza de Minas greenstone belt, Minas Gerais, Brazil
J. Oostindiër (Utrecht, The Netherlands), P.M. Taufen (Rio de Janeiro, Brazil) and S.P. Vriend (Utrecht, The Netherlands) 57

Comparison of stream sediment and soil sampling for regional exploration in the Eastern Alps, Austria
C. Reimann (Leoben, Austria) 75

Book Reviews

Geology in the Real World - The Kingsley Dunham volume, by R.W. Nesbitt and I. Nichol (Editors) - A. Armour-Brown 87

Prospecting in Areas of Glaciated Terrain 1986, by IMM - R.N.W. Dilabio and W.B. Coker 88

Applied Geochemical Analysis, by C.O. Ingamells and F.P. Pitard - K. Fletcher 89

Geochemical Atlas of Northern Fennoscandia, by B. Bolviken and others - A.W. Rose and E.M. Cameron 90

Designing Optimal Strategies for Mineral Exploration, by J.G. DeGeoffroy and T.K. Wignall - D.A. Singer 93

Practial Problems in Exploration Geochemistry, by A.A. Levinson - R. Webber 94

AEG News

Research Papers

Geochemistry of placer gold, Koyukuk-Chandalar mining district, Alaska
E.L. Mosier, J.B. Cathrall, J.C. Antweiler and R.B. Tripp (Denver, CO, U.S.A.) 97

Geochemical stream sediment and overburden surveys of a zinc- and barium-mineralized area, Freuchen Land, central North Greenland
U.H. Jakobsen (Copenhagen, Denmark) 117

Derivation of gold by oxidative metamorphism of a deep ductile shear zone: Part 1. Conceptual model
E.M. Cameron (Ottawa, Ont., Canada) 135

Derivation of gold by oxidative metamorphism of a deep ductile shear zone: Part 2. Evidence from the Bamble Belt, south Norway
E.M. Cameron (Ottawa, Ont., Canada) 149

Seasonal variation of gold and arsenic in biogeochemical samples from a disseminated gold deposit in the Northern Cordillera
L.W. Ashton (Plano, TX, U.S.A.) and W.C. Riese (Houston, TX, U.S.A.) 171

Tungsten exploration in semiarid environment: Central Anatolian massif, Turkey
A. Özcan (Istanbul, Turkey) and M.N. Çağatay (Dhahran, Saudi Arabia) 185

Discussion

Comments on "Ironstone-gossan discrimination: pitfalls of a simple geochemical approach — a case study from northeast Scotland" by K. Nicholson
C.G. Smith (Edinburgh, Great Britain) 201

Reply to the comments by C.G. Smith on "Ironstone-gossan discrimination: pitfalls of a simple geochemical approach — a case study from northeast Scotland"
K. Nicholson (Auckland, New Zealand) 203

Announcement 207

AEG News

Research Papers

Drainage and overburden geochemistry in exploration for platinum-group element mineralisation in the Unst ophiolite, Shetland, U.K.
A.G. Gunn (Nottingham, England) 209

Discrimination between altered and unaltered rocks at the Connemarra and Kathleen Au deposits, Western Australia
A.J. Eggo (Belmont, W.A., Australia) and M.G. Doepel (Claremont, W.A., Australia) 237

Gold exploration in Niger using soils and termitaria
C.F. Gleeson (Iroquois, Ont., Canada) and R. Poulin (Montreal, Que., Canada) 253

Source and heating rate effects upon maturity parameters based on ratios of 24-ethylcholestane diastereomers
M.G. Strachan, R. Alexander, W. van Bronswijk and R.I. Kagi (Perth, W.A. Australia) 285

A contribution to regional tin exploration in the Iberian Massif
J.L. Fernández-Turiel and M.E. Durán-Barrachina (Barcelona, Spain) 295

Scheelite as a prospecting tool for gold in the Ramagiri greenstone belt, Andhra Pradesh, India
K. Surya Prakash Rao and R.S.N. Sastry (Hyderabad, India), and S.V. Raju (Jodhpur, India) 307

L'or dans les eaux souterraines: implications pour l'exploration (Gold in groundwater: implications for exploration)
M. Bergeron (Ste-Foy, Que., Canada) and J. Choinière (Montreal, Que., Canada) 319

Book Reviews

Archean Lode Deposits in Ontario, by A.C. Colvine, J.A. Fyon, K.B. Heather, S. Marmont, P.M. Smith and D.G. Troop — E.M. Cameron 329

Biogeochemical Exploration for Mineral Deposits, by A.L. Kovalevski — J.A. Erdman 332

The Practical Applications of Trace Elements and Isotopes to Environmental Biogeochemistry and Mineral Resources Evaluation, by R.W. Hurst, T.E. Davis and S.S. Augustithis (Editors) — S. Pirc 333
